Ken Pentel FOR GOVERNOR

-ecology Democracy Party-

The Pentel campaign for Governor is dedicated to restoring a harmonious & sustainable relationship with our natural environment through a STRUCTURAL CHANGE in the fundamentals of Minnesota Government by:

- ★ Establish an ECOLOGY-BASED ECONOMY: We will measure the health of the state economy based upon the health of the water, air, soil and habitats.
- ★ Implement PROPORTIONAL REPRESENTATION: The current electoral system is a winner-take-all system. We will establish multi-party proportional representation (used by most democratic nations) within the Minnesota House of Representatives. If your party receives 10% of the votes, they earn 10% of the seats.
- ★ Remove corporate interference in the PEOPLE'S government: We will end corporate personhood.
